ASSURANCE.

THE EQUITABLE LIFE

Assurance Society of the United States.

120 BROADWAY NEW YORK

Assets, \$38,000,000.

Surplus, \$7,500,000.

The Popularity of the Equitable Life Assurance Society,

indicated by the fact that for Eleyen years its average annual New Business has been larger than that of any other

Company in the world, is due, in a great measure, to its well-known promptness in the payment of Death Claims, and its

rule never to take advantage of technicalities where an equitable claim exists.

As a GUARANTEE of this, and to counteract the pernicious influence of a technical policy, adhered to by many

companies, the Equitable makes ALL ITS POLICIES, old and new, throughout the United States.

ABSOLUTELY INCONTESTABLE,

After the policy has been in force for three years.

"The Equitable Life has paid since its organization to January 1st, 1880, \$51,882,736, and closed its books upon that date without a contested or past due claim."

The Equitable Life Assurance Society was the first to introduce the

TONTINE SAVINGS FUND POLICY,

And thereby to popularize life insurance to a degree before unknown.

By the late report of the Insurance Commissioner for the states of Massachusetts and New York, the Equitable Life Assurance Society shows the following strong points:

FIRST--The Equitable has a larger ratio of assets to liabilities than any of the leading companies.

SECOND--The Equitable saved more of its income last year than any other company.

THIRD--The Equitable's death rate was less last year than any other of the leading companies.

FOURTH--The Equitable realizes a higher rate of rent, or interest, on real estate than any other company.

The Society takes pleasure in referring to the following well known business men insured in the society, composing an
